Imperial Hotel

Tokyo

Dear Bill,

10-23- Sunny

So glad to have your letter today. You'll see that I'm running out of the "Imperial". Will undoubtedly have to go back for a second orbit. We'll be glad to see you on the weekend.

10-24-68 Rainy

The man came from Washington yesterday and I took him to the Trinity meeting at the Carbon and Carbide Bldg (husband of the wife who's the present pres. of the Chicago Chapter). Coffee and catalogs and cards. Weren't you doing this awhile back, not for Yale, but for U. of C.?

Two husbands took him to the Tavern for lunch. I missed hearing the man I was responsible for in the Know Your Chicago lectures, i.e. Francis Brenton from Liverpool who crossed the Atlantic twice in his outrigger.

I ought to go over to the Museum of Contemporary "Art" today and see the "Richard J. Daley" show that Richard and Feigen and Oldenburg are into. I dread the insults, but Dick says it will probably just be a good joke.

The last Lyric meeting was in the offices--top floor-- of the Kemper Bldg. and lunch--everything very elaborate and everybody referring to him as the "ambassador"--poor old one-eyed man. I guess it was once Argentina. They made \$80,000. on the Opening Night of "Salome" plus the Opera Ball. So they'll be a little less in the red. It's \$16,000 in the red for each performance even with every seat sold. Losing game.

Well, getting back to Washington--I gather you have found an apartment and it may or may not be with another man. Is it permitted to mention whether you will be living on the south side of the river where you'll work for the time being--or the north side in the District?

Did you see an article on Baltimore in the October "Town and Country"? I have it and it's interesting while you're in the city still. Eventually Nancy would like to read it most likely.

I'm looking out on a desert. Yesterday I watched them take down the one big elm on the N.W. corner near the hydrant. Sad, sad. They're all gone now; only a few lindens left on Elm. They're going to plant, they say, some maples and something else. We're as bad as Urbana and Calvary.

Gus's book is out, very nice looking little volume, but it's 50 or so poems are not the ones we liked best--or knew. John Nims selected them; he's teaching at Harvard this semester. Henry Rago's teaching at U. of C. You won't be here to vote. Have you gotten an absentee ballot? Or can you vote? Or who would you vote for anyway?

Saltiels came to dinner and we did "round-the-world" slides. No news but much love from all of us.

Devotedly,

Mother

Mr. William J. Bowe, RA 68032742
U. AENTS, Box 1406
St. Holabird, Md. 21219

21 October 68

Dear Mother, Dick & Julia

I am now entering the 13th of my 15th weeks here at Holabird. The 14th week will be taken up with a FTX (big deal) or, in the vulgar, Field Training Exercise involving various forms of surveillance, etc. I'll be the hunted rather than the hunter, however. The last week will be mostly taken up with out-processing. My plans at present are to return to Chicago following my Friday, November 8th graduation for a long weekend, since Monday the 11th is Armistice day. I'll report in Washington for my new assignment on the 12th. Except in the most general terms I am unaware of what my new responsibilities there will entail. As I mentioned before, however, it is potentially of great interest. I will be living indefinitely in an apartment near the Pentagon on the Virginia side of the Potomac. I may end up travelling a great deal both within and without the country, but this is merely conjecture at this point. I did get a chance to view my unit's headquarters last week - highly inconspicuous.

I hope you are all well and manage to spend all your free time watching every Fall football game on television. In case you missed the major game scores this past weekend, they were: 31-20, 16-3, 48-46, and 24-20.

Bill

Imperial Hotel
Tokyo

Dear Bill,

Glad to hear you last night. Dick's back and had a good trip.

He went via Montreal and Toronto.

70° here. Sat across with Julia. All send love including Saltiels
Muckleys and Chris.

I'll take care of the ashtray. Why don't I just send them a volcano
from Guatamala?

I'm swamped with Trinity. I wish some time when you go to D C you'd
drive, not past, but through the property there. It would take a
full 3 min. and would give me a lot of pleasure.

Good luck with all the next steps, exams and all finale business.

Affectionately,

10-14-68

October 10, 1968

Dear Bill—More travel notes! Talked to Dick last night in Boston. He seems to be doing very well and enjoying his freedom from riots and hearing about the difficulties of other cities. He said you'd had good word on your own next efforts. I'll doubtless hear about that later.

I've been going to Know Your Chicago, as usual and heard Mortimer Adler, Philosopher, charmer and "thinker". "But what do you DO for a living?" Ford money for the Institute

Dr. Henry Betts. Dir Rehabilitation Center (Army doubtless does the same thing. I've seen lessons of amputees dancing and other handicapped (even the blind, dancing, and managing well—very inspiring.

Colleen Moore Mrs. Homer Hargrave told about her Doll House. Unimportant. Even Major Lenox Lohr was asked ^{why} such a display in the Museum of Science and Industry, and he said, Well, lots of children come to the museum and see it and maybe a little science will rub off on them."

William Patterson ^{from Cal.} retired from United airLines, was excellent, running over the whole commercial flying industry. At 30 he picked Chicago as a center for the industry and the newly agreed-upon union of airlines and came, a stranger, to a building which was a center for law firms. He picked a name he once heard from the 1st floor directory, went up and asked to see the pres. He was dead so he went down the line till he found a name of one ^{alive, but} who was busy. He was asked to sit down and wait. He finally walked out without the receptionist even noticing that he was leaving. He picked the next firm and had better luck. Having 5 airlines united, and a lawyer, he thought he ought to get a bank, so he walked in to the ^{Continental} and asked for the Pres., "busy"; vice pres., same thing, but finally one officer (very nice) came. He said he wanted to open an account and could he have the legal papers. "You don't need a thing. Just come over here and fill out this slip". But he said it was a corporation and he would fill out what was needed and he handed him a check for one million dollars. So much for air traffic.

Avery Brundage considers the Olympics a world dream of amity, peace between nations, brotherhood,—not just running fast. Also he had trouble giving away his \$45 million collection of Eastern and Oriental antiquities (see Sept. Readers Digest). He's a little feeble but full of Exercise and Art.

I was relieved to have the Cardinal keep his talk confined to the archdiocesan schools and their problems—He followed Dr. Oldberg who kept entirely to the Public Schools and the Board of Education. He used to love Mayor Daley but is sore that Whiston is still on the Board after 20 years.

Hotel "Antigua" en Antigua Guatemala

Lewis Hill was good but spoke to much about the future—as though we hadn't done anything already—but it was a fascinating picture he drew. I'd heard

The temporary flat next door disappeared overnight almost and yesterday I saw surveyors in there laying out the spots for caissons. A mobile office is to be moved in soon! Alas.

The many errors in this document I attribute, not only to age but to the dark, rainy day. Sorry about that.

lots of it before from you and Dick.

Dr. Daniel X. Freedman of the U. of Chicago Dept of Psychiatry was very good and got around to not only schizophrenia and drugs, but also alcohol.

Maria Tall chief, Mrs. Chris Paschen, (the builder,) an Osage Indian, told about her industry and her life and rushed off to fly to Washington. You may have seen her alight at Friendship. Russian and N.Y.C. ballet and Lyric. No sign of Ruth Fisher doing any more talking but there was a word about Tom Fisher being required soon to show why something or other. It was delayed because of Judge Harrington's death.

Van Der March is head of the Contemporary Museum of Modern Art on E. Ontario. He probably loves Clas Oldenburg (who" didn't have sense enough to drop out of Yale").

Next time comes Francis Brenton whos been around the world for the Johnson Motors and just came up the Inland Waterway and the Hudson and the Trent Canal (I don't know where in Canada it is.) and will be coming down Lake Michigan by Oct 23. His Ralph Frese, and I are dear friends lately, holding our breath till he gets in.

I'm pretty busy with 1000 cards for about 500 Trinity local alumnae and the diningroom is a sea of cards—or you'd have heard from me before.

^{M'Quade}
No papers will reach Dick till he gets back. Those forwarded by J. Casey to the Gramercy missed him—just as well. We expect him Sunday next.

I went to a Lake Shore Animal Hospital thing last night at the Pritzker's, about 100 of their friends including Sydney Harris and Bill Mauldin (whom I had just heard talk with Emmett Dedmond at the Sun-Times—very pleasant and ingratiating.) I met Peter Van Nice and his thin, pale, nice little wife (whose mother is Hunt, ^{marzo} I think). Peter and she are in 73 E. Elm. Never ran into them and don't expect to, having no dog. Cleveland Amory spoke, large wind-bag, Met Dr. and Mrs. Menninger with Mrs. Julia Krafft (Lyric Board—Last time we met was 2 years ago in front of the Hotel Bretagne in Athens where we spent a Sunday afternoon wandering around the city dropping into a variety of church services—only places open.)

Weather's been beautiful—hope your has, too. And hope you got in in time that night! Julia sends her love and Martha and I certainly do and will be glad to hear from you that plans seem to go all right.

Devotedly,

Hotel "Antigua" en Antigua Guatemala

CABLE ADDRESS "IMPHO TOKYO"

I want to know how you like your first year at the University of Chicago. I hope you are enjoying it. I hope you are enjoying it. I hope you are enjoying it.

Imperial Hotel

This letter was written in the Imperial Hotel, Chicago, Illinois. I hope you are enjoying it. I hope you are enjoying it. I hope you are enjoying it.

September 23, 1968

I hope you are enjoying it. I hope you are enjoying it. I hope you are enjoying it.

Dear Bill. The Tuxedo came! and it's back in its vault. Glad you could get along without it.

Julia, Dick and I were very glad to have your letter. I forgot G.P Ward would be a Republican. I'm sure his Uncle George Page (and my uncle, too) since he married my Aunt Mary Gwinn, was a Democrat. It comes to think of it, William C. Page, Pres. of the Calvert Bank and my father's life-long friend just might have been a Republican. The third founder of the Bank (Howard and Saratoga) Mayor James H. Preston was certainly a Democrat. Well, they're all gone now.

I'm amazed to hear about good plays in the Charles Center. At one time there were lots of pre New York tryouts in Baltimore.

Julia, Dick and I had dinner yesterday, Sunday, at Freborg's and Mr. Luhan from Loyola was there. Eddie's birthday. The squirrels sit on the porch railing with 4 legs and 1 tail hanging down and wait for Stan to come home.

Mr. Joe Danaher died at 50, stroke. He was fat and used to drive Gus around when he was making speeches. Mr. and Mrs. Keith Wilson came to take Julia and Dick to his wake and stopped to have coffee and visit at 4B. We thanked him for your letter and said you were great. He read Dick's riot report with considerable interest. There doesn't seem to be much Democratic activity going on. I don't know why they're waiting.

At this morning's writing I was sitting in the Field Museum, keeping guard over a worktable of bead stringing for belts for an old Indian lady-- Winnebago. The museum was swarming with hundreds of school children liberally crowded in for this week's Indian Exhibits. I remember when you hit that subject about Grade III. I've sitting there in a blue smock, like a hospital aide--and taking groups around all morning. I think they spoiled the main room by pushing the elephants over to one side and bringing in the dinosaur plus two fountains. I preferred it open with just the elephants fighting in their natural marble habitat.

Dick's coming down to see you this Friday. Call him up to settle times, etc. Would you want to stay in Baltimore Friday night? He wants to see and the Fort, Washington briefly and return via Philadelphia by bus and York and see the twins before getting back.

Well I'm fed up with the Indians after just one day. The Woman's Board are going next to Brazil, but not I. They're so hipped on flora, not fauna. Not much news. Ribouds are back from bicycling around England. John Bove and family are in from Waukegan but haven't quite finished painting the house. They're putting an attic room on, so the boys won't be in the tent.

I've got to raise money for Trinity. Next week Know Your Chicago lectures include Dr. Oldberg and Card. Cody, Avery Brundage and Lewis Hill. I'm nervous.

Imperial Hotel Tokyo

St. John

Dear Bill -

Another final memento of the fabulous Far East. If we're here that here what it been like in the Land of Noble, S.E. Baltimore? Over the Day trail? Does Ruins get in the water?

We're so well guarded here - would you believe. 1120 front door is locked all DAY! You have to have it unlocked to get out. We have now lighted EXIT signs on the 1st floor like the State-Sake. And of course you have to be buzzed in the back door.

When I went away two people I thought would be dead on my arrival back, that Severine & Tony. That is, that has the strength & bank account to give five million to Northwestern "Severine School of Business Administration" or something else like Harvard - and Tony lost his gall bladder and 30 lbs. But a few days after I returned Chris called, "Mrs. Bore, do you want the ride out to the ceremony for Dick?" I thought, "Gacious! He's being honored by Daley!"

But it was to say farewell to the back-door man, Dick Somebody, who had a heart condition; - at Dentley's upon Clark and Roslyn (?) He didn't also Mr. Thinner for

Since Five Norwegian parlors were taken on W. Elm & La Salle - (not dead, only Neurotic) Richard's been on the late check up shift - He works till 12 on the phones tonight and we have three... do if possible on in his unit - Nat. August 15, 1968
Rain

Dear Bill,

Thursday evening and we're having a big pour at the moment. Dodie just called to say Jubia and Owen must have gone north via Ouchy and ^{Grasse} Geneva. They'll be back next week. I think Julianne and Willard are to drive over and get Owen. John Bowe's house on Orchard St. is empty and he wants them to stay over up there.

I went out with John last Friday and stayed till Monday morning, sleeping in the guest house of their German neighbors (all plastic, beer, a bar and an icebox in the bedroom, very well built little place for their visiting children and what did I discover just before leaving Mon. Am-- an Iron Cross over the window behind the bar. Naturally he was in the German Army but Mrs. said "We found it."--maybe in his pants pocket.

Well weather was beautiful and it was really a lovely weekend. The only other time I was up there was with Bill when they got it--10 years ago.

Chesley is in the Lawrence Hospital, Bronxville with her new son, David. Nice boy arrived today. All fine. She called Marf and me and Peter wired the Chindrieux people. Baptism Sept 8 or 15.

Hope your papers were all right, (and your typing better than mine). Hope you had a good weekend. Call the Baltimore banking people even if you don't see them.

There were several items in the paper last night. I'll just stick them in. Less than newsworthy.

Julia will be in Monday, 19th. Your things are all in good order where you can put your hands on them and we're all ready for you whenever you come. It will be great to see you and hear something about your saintly efforts in fabulous South East Baltimore. Just don't forget that it was the home away from home of the Hamburg-Amerika Line. Hope you have raw oysters whenever possible--and terrapin--and shad. Also it's the Monumental City; we need a Picasso there.

Yalams.

Much love from us all. Affectionately,

Altogether

Imperial Hotel

Tokyo

August 8, 1968

Dear Bill,

Your letter just came and I had just pailed one to you so you know not too much has happened between my two letters. However, we've just dropped from a wet 90° to 70°, wet with proper rain, instead of goopy air. How is your hot air in Dundalk (of which I never heard)? The other evening (TV) Mayor Lindsey was challenged about N.Y. smog and he said, "Frankly, I don't like to breathe air I can't see." I was reminded of Ray Walters, when he was a sharp, witty New Yorker. Those were the flourishing Maguenot days when he was a completely different man.

Dick went up to dinner with Irene and Ramond last week. Very pleasant he said.

I had a bad toe and went down to Mr. Mauser who is the great God of the Feet. It gave me no trouble around the world thanks to my fine, old golf shoes. Anyway I was so lightfooted when I came out I walked down to the Museum of Contemporary Art, opposite Feigen's on Ontario and you should see—Giocometti is there, taller than Steve and thinner than a straw, and Claus Oldenberg with a bunch of plaster sloshed on a board and the bluish imprint of a sewing machine just visible. Also copies of Op (tical) Art from New York with everything moving, like the Calder, and some pictures with their own sound and small TV imbedded in the canvas. I came back in a quick cab because of the downpour, just in time to see the tuckpointing men scrambling for the campy.

It wouldn't hurt me to do a beginning course in typing again and cut down the strikeovers (all shameful mortal sins in the old Strayer days).

Julia's latest letter from Florence tells about a big family of women and girls taking Owen to their hearts and on their Lido boats when they were in Venice and going to everything all over—Owen in perfect silence. Julie said a little Italian was beginning to emerge out of her memory. Do you think you're likely to be facing some language before you finish being a Saint? Nope it won't be Chinese.

Good luck with everything. Dick sends his best and he refuses to leave not only the country, but even Chicago.

Affectionately,

Walters

Imperial Hotel
Tokyo

August 7, 1968

Dear Bill,

Last Asiatic memento. Really stimulating letters don't develop when you know pretty much hour by hour just what we're doing. Well, if I'm hot I can imagine what you are. Baltimore was never known as a summer spot. The main things about Mt. Washington were the openness of the house and the space and the greenery. But, if it's any comfort, I remember that Washington is worse. The Potomac Basin is a free steam bath.

I went to one Know Your Chicago meeting at Mary Ward's and Lake Forest was none too cool. Their program this year is a mulch; 16 people talk on 16 subjects during 4 sessions--you name it, you talk about it--from Win Stracky to Newt Minow to Lewis Hill to Cody to Coleen Moore. Jesse Owens and Henry Rago and Ferd Kramer and Jos. Block are on together. That'll give you an idea, and all in Wacker-Wells Engineering bldg with folding chairs. (The Art Institute grabbed back their Fuhlerton Mall from everybody. They need it themselves.)

Chesley's baby is to arrive any minute. You're invited to come up and see him (Suggest a boy's name--not French).

The tuckpointing ^{is above} is coming down by these windows now and such a mess of hardened sand splatter! Julia comes back August 19th. They were in Rome the last we heard.

WE ate at Freborg's last night; no mosquitoes, only Stan's private squirrels. And so Nixon will have another try at it! Thinking of duties, what are you doing from 9-4:30?

The city seems to be quiet enough for the moment. Hope they're not just working up steam. I've been swimming only about three time--but no alewives. This is the epitome of no news. How's your U. of C. drive coming on? I've got to help shortly with the Trinity one. You have never seen the college--if you ever drive into Washington via Brookland, drive through the grounds, stick your head in the Chapel and don't run over the Pres. Sister Margaret--she's a good man, very up and coming. I'm very fond of the place. Margaret is going to Albion in Michigan, co-ed. She didn't apply in other areas. Don't know what Ted will do. Flora's due back tomorrow from her vacation. Dick says Hi! He's pretty quiet. Much love to you and good luck with all of it.

Affectionately,

Brother

Dear Bill,

July 11, 1968

This is the hotel which was full of Indians and Arabs playing slot machines and in London for seeing their doctors; and the elevator didn't reach the top floor (where we were) and they were working hard on the appearance of the place—painting it a light raspberry color on the first floor only. All pillars and upper reaches were white. The Arabs came from a part of Iraq (not Kuwait) where there are 40,000 people and the kingdom has 100,000,000 Sterling annual income. (early)

Found something nice in Fields for the new Sibleys. Talked to Carol; have some eastern mementoes for her. Dick is off to the warm South Side these days till 10 P.M., just watching the kettle boil.

Got a Certificate from Japan Air Lines that I crossed a Pacific Date Line. What advertising! It was the Emperor's birthday on the way to Tokyo and we lost that day out of our lives.

Weather here is 66° but it can't keep this up all summer, so the Air Conditioning men are supposed to come in today and put 2" in. I'll put Julia's in your (her) bedroom and the other in front. Dick sleeps like the dead anyway and doesn't want one. I'll pick up the home fires in the back room. We'll be awfully mixed on shoes and other items, but it will be the best way to do it, I think.

Much love to you and congratulations on another degree and certificate. Love from us all.

Mother

Julia and Owen write from Heidelberg; they're having a very good time and he's not bored one second and Julia doesn't know how she ever got around without him.

John Bowe and Kathy are in Cape Perpoise and Julianne and Willard will drive up there and pick up Owen from Boston on the way back--Maybe the middle of August. Teddy flunked out. Margaret is going to "Albion" in Mich.

6-24/68 Paris
25

Dear Dick -

Julia writes you had a short breather & could get up to 1120 at least one night - Good. Hope you'll have another one at the end of your current session. Will it be around July 13th? I do hope to see you I'll be home July 1st - forever!

The trip has been excellent & we've kept well (12 records) & the weather was without a drop of rain between Tokyo & Paris. There's a problem with the air - no supply, the RTA plane half empty, Tokyo overbooked & the Tokyo authorities (over) which was a surprise because of not having heard of it before - our biggest problem so far - some to be sure, which (the advice of contact) will allow them to see how they can help (+ spot other) more and for ahead of time so they can take it off a specific point. Even so I spent a fair amount for more film & the things that were to be my main focus, since the other 2 months away once we get to the "beach" at Sendagaya. Also in each with your new met's right on right hand by the door, remaining in town. I'm very excited. I'd like to see many more - we could do a photo to (ie, Japan, Greece & Greece).

All the kids are well & I'm sure they're having a great time. Kevin, David & Jean progress in the studio. I forget which island but they did set down & will be back for the weekend & etc. You and I had fun on our way to the beach & back Sunday (a German chaplain from the company, rather like a unit A.N.T., A.K. & I had a conversation from the top of the hill in his own building and construction business. Well, he's not - not for so long - we had lunch & a drink & he, David & I also we picked up from David & that was a finished his summer year (the) & staying there & went to a dinner & the lounge & I was, the evening. There was a bad cocktail with Tony & his wife & some other people from Texas, in the house where I had a very good time. I'd like to see some of which the Nazis occupied & when the German ambassador to NATO just vacated, interesting & stunning medium sized town in the middle of a block (it

you and I just 1 (like the boys) very pe - mat & then dinner
for Geo. Handley.

Impressed me first in London. Hotel Victoria (near) (near) (near) about this
one but it's near - Piccadilly Circus. Then always B.O.D. July 13th

Wish you a satisfactory & friendly work-up for you & be-
work & your new associates. Good luck to you all, P.

Blessing all around - Love
Mother

mailed from Hopkins) we written June 18th & on go there. untill the 18th. I feel sure we
will go as our hotel & most meals are set & paid & we is out in the R. Edward Howard hall
anyway. In any case we'll decide in Rome where we'll go the 20th - Love to both
Mother-

Dear Bill - Just sent you birthday greetings a little
ahead - Want you to know (which you do anyway) that
I'm thinking of you & your new & unique "work
wherever" idea. You've managed quite a few other
areas & problems in your day & done well with the lot
& I know you'll manage this one too. Good luck
with it.

Our 5 day island cruise was perfect in weather &
ship & amiable people & with the 12x12x10 swimming
pool thrown in. They changed the water daily glad
to say. We "did" about 2 islands a day, climbing up
down ruined Temples, 3rd century on & lots of B.C. & E.C.
going by racing-bus around lots of country scenes with
fine steep embankments. I went up two plants by
monkey & don't feel sad for him! I saw the owner
mount him & ride off - 250 lbs & I'm so much less.
Views of the Aegean Sea were made vivid by a suc-
cession of guides in low with Ancient History & full of all
the wars & conquests of the past.

In Mykonos we met by an old friend from the Middle
East town, one of the of Cady, who now lives there - 3000
people 105000 tourists, but the summer 300 windmills & 300
private chapels & every wall, street & steps whitewashed
by law 3 times a year. We were dinner guests - labeter -
the new restaurant of an Olympic swimmer.

It is having another nice look at Athens, was. Beautiful
city & Istanbul was too far that matter but phappier. Plus a
never-mixed in with the old. Building begun all over.
Iran was pretty warm but nothing like India. Anyone who
wants them can have Senares and Calcutta & Aggra too
(except for the Taj Mahal). But it's been a great trip. Just
with Doady & I could have taken it together. He was a
great traveller. We'll decide about Paris next week. Nancy
says skip it - but her letter (given to a TWA passenger &

AIR MAIL

Hope you got my June 2nd wire.
You had pretty good - to

Some 6-18-68 left Athens
this AM. The Rome airport is a
maelstrom in a labyrinth. No
doubt we'll go on to Paris Sat. There
are just as many strikes pending here
& in England as in France. I'll say
she & Owen will take off. May be
able to talk to her at least. Will fly
straight back to Chicago from London
ought to be in Ottawa by evening July 1st
Hotel Adria London till then. What is
your lease? It's been a great trip. I
have been extravagant with the money. I
will see Bee Debut and the Pope & Mr
Debe from Loyola. Good luck & love Mother

Tues

entirely in a public circle - Paul VI -
very sanely all gentlemen. Then we took
Father Ted back with lunch for his regular
snack but the Augustinian College, Lyons
ago he couldn't do that. Then at dinner
there at the Hotel Victoria (very nice but not
solid gold) He walked in with Drew and
Raymond. Some ate together, had a bit
He's "reiterated" dinner for to Elbe (they
very naturally) & walked down the main
lobby for coffee afterward. They flew back
this morning. We had to book. Rev.
Schubert in their steaming apartment with the
two tea pots & 6th floor. Arrived. The bed
walked about 5 mi. in the Boghese Gardens
& through the Boghese Museum. Shoulda tried
to find handsome gods & goddesses with their
basses intact. Every thing back up with a
the Mediterranean. He's like looked. Matt
Napoleon did to the Sphinx with cannon fire!
we're off now to proceed around the forum
Museum & make for Paris tomorrow AM.

Lyons is closed. Also they had student
strike & ex-entrants swimming in the
Fontaine & some had to rest home. The air
no longer afraid of Paris strikes. Strikes are
called in every country by the airlines

June 16. 68

HONGKONG HILTON

Telephone: 233111. Cables: HILTELS HONGKONG.

Dear Folks - As I've said, we wait till the end of Rome
to decide about Paris. We see the planes are in rent & the
D'Amico said Nancy's truly low-spirited letter was
written June 1st. As to Jacq's predictions - gloomy indeed,
Marg'd ^{them} with a w. I don't remember his ever having
been wrong n.e. about WW II. We see taxi fares are
higher in Paris now but they are evidently on the streets.
Our hotel & some meals are paid for. We'll see how it all
sounds from Rome. We are not going to be in the
Rebond household anyway but at the Hotel Baltimore
on the Ave Kleber & I don't hear that the Museums have
had sit-ins.

I send Dick birthday greetings and hope for a good year
for him. I also sent a message to Bill. Hope he gets it.
Just bought June 17 Newsweek - France looks about better.
In Rome will call on Ted Lark, Pie Selbit & Fr. Delice &
some friends of Mary's. I met also (who was at 1120 come)
yesterday it was nice to see mtb Athens again. We checked
at 8 & by 9 got into our room at the King George (which
is next door to my old Grand Detagne). We took a bus ride
in the afternoon all around the Rock etc & ate dinner in the
hotel, listening over the city to the "Son et Lumiere" going on
over at the Acropolis. We have both seen it before.
This afternoon we'll take another bus ride out to a Cape
Sounion & maybe swim, if it isn't too late. Weather is
still perfect. I used my umbrella once at Persepolis
against the heat. He had 2 swims in Tokyo (swimming
around camp parks & temples) & that fall. It's been a
great trip. Congratulations to Margaret & love to you all

Affectionately Mary

Got Radio news letter & Mar. 16. 68 &
Nancy's & Julius. Thanks all

I went to a Know Your Chicago tour last week: Lincoln Park snakes poisonous (They get their food---mice--- from the Abbott Laboratories) then we went to the Marina, then to a Black Hawks practice session.

This last was fine and all the 200 grandmothers loved it, including me. I enclose love and kisses to you from the great Bobby Hall.

I just talked to Carol because I knew you'd called (from the phone Co.) Dick was planning to go down so you two must get together; it would be a shame to miss each other.

Would you like me to send cookies to you and your roommates?

Flora sends you her best. She says (regarding roommates and privacy). Robert said "After three years, when you get out you have the most peculiar feeling". James, too, had the most peculiar feeling. He's the bus driver.

No more news. Hope you get this weekend's visiting straightened out; it means a lot to Dick, too, especially just now.

Much love from us all.

Affectionately,

Altother

Mr. Joe Bannister died at 50, stroke. He was fat and used to drive the around when he was making speeches. Mr. and Mrs. Keith Wilson came to take Julia and Dick to his wake and stopped to have coffee and visit at AB. We thanked him for your letter and said you were great. He read Dick's report with considerable interest. There doesn't seem to be much democratic activity going on. I don't know why they're waiting.

At this morning's writing I was sitting in the field house, Keating ward over a worktable of food straining for collector or old Indian lady. The museum was swarming with hundreds of school children lined up crowded in for this week's Indian exhibits. I remember when you hit that subject about grade III. I've sitting there in a blue smock, like a hospital aide--and taking groups around all morning. I think they spoiled the main room by pushing the elephants over to one side and bringing in the dinosaur plus two fountain. I preferred it open with just the elephants fighting in their natural warlike habitat.

Dick's coming down to see you this Friday. Call him up to settle times, etc. Would you want to stay in Baltimore Friday night? He wants to see you and the fact Washington briefly and return via Philadelphia by bus and New York and see the twins before setting back.

Well I'm fed up with the Indians after just one day. The woman's heard here are worse next to Brazil, but not I. The 're sohipped on Flora, not even Julia. Not much news. I should be back from dining around Garland. John Dow and family are in from Waukegan but haven't quite finished painting the house. They're putting an attic room on, so the boys won't be sleeping in the tent.

I've not to raise money for Trinity. Next week Know Your Chicago lectures include Mr. Osberg and Card, Cody, Avery Brundage and Lewis Hill. I'm nervous.

Dear Bill, I hope you had a good time at the wedding and I wonder what you did for a tuxedo. I certainly hope it isn't lost --about \$100.00--value and where I mailed it in Field's they couldn't insure it. Please let me know if it reaches you. Since there was no strike I can't see why it couldn't have gotten there Friday when I mailed it early Tuesday. Well--I'm horrified to think it may be lost.

Last night I went to a Symphony concert and was talking to the Covingtons afterward. They are fine and said to say Hello to you. Also Mrs. Dennis Freund asked for you--that ought to make you feel better. And also Blake. All love you who know you.

Dick must have had a dreary, mean weekend in Delta last week. He said the two lawyers were both OK and he said the children were well, except that Anson had swallowed a pin, but he spent one night at the motel and when he left Saturday evening he walked 12 miles to the airport. Now that I think is hellish (along with other things). It will be hard to get the twins up here to see him without his having to go down to get them and then take them back. Well, he says he has some vacation time due him soon; he doesn't know just when.

Martha is back home from Pres. after 10 days and while she was in a desperate state with acidosis when she went, they made some changes and she's now properly launched again. She and Ted and John drove Margaret Friday over to Albion College, Mich, not far from Battle Creek. ^MShe did not apply to Trinity and maybe it's just as well. She was for a coed school and her grades wereN't spectacular so she may do better there. Ted was dropped from St. Norbert's and hasn't done anything all summer and doesn't seem to be on the ball looking for anything at the moment. John says all his suggestions aremet with No and Martha doesn't talk about it.

The last time I talked to Chesley they were all doing very well, new baby and all. I hope Nancy will be over in the fall; she usually does come about this time of year.

Julia and I went to Wendy's wedding and it was very nice; she thought of everything and Quigley is a memorable place to have it. The breakfast was at the Drake for about 100 --glad they weren't in here! The groom, Bill Deffinger, is not a ferocious character, but he's nice enough looking, has a job and likes the theatre. His parents are pretty young and are very nice. All prayers were said including the blessing from the Pope. They went to New York for a week and will live in the Tree Studios. I hear Medinah has bought that property, so the little enclave may be doomed.

Steve Mitchell is Asst. Democratic Chairman I read recently. We haven't seen him. We might have a meeting at Keith Wilson's suggestion, a coffee, later on. No more news. Let us know how you are doing and what's the most interesting part of it, if it isn't classified. Love from us all.

Affectionately,

9/18/68

The furniture has been pulled out of 1110 L.S.Dr. but no one knows anything about whether they have the money or not; or will build or not or when.

September 10, 1968

Dear Bill, Another final travel memento, this time from Guatemala. Carol called last night and told me about the New York schedule for this weekend. I packed off this morning and mailed from Field's (where they can't insure) your tuxedo and accoutrements. I hope this box won't be lost and I really want to know at once when you get it--and it will have to be pressed naturally. I hope it will be a good weekend and that you'll have a lot of fun at the wedding parties. Who's going to be married?

I talked to Chesley the other day and told her that you had hoped to get up to New York for last weekend, the time of the baptism, but evidently were not able to get away. Nancy, Jacques and John Gwinn are bicycling in England in the South looking at new young villages and small civic centers--the kind that interest Jacques so much.

Here, Martha is in the hospital. She went in before last weekend and was very ill, indeed, with acidosis which is the opposite of a diabetic coma. She was very sick indeed I heard the doctor say (a man who, when I met him, said he knew Bill and had tried many cases with him and against him. It's been a long time since I met anyone who had done trial work with your father. He was a very nice youngish Doctor Silverman. Anyway, she's "fine" and still in hospital. I've gone over a couple of times with John and Margaret. But she has a cold and they're still full of testing and changing the diet.

We got through last week, as you heard from all the radio and TV media and it was just shocking to see the onesided and overly colored presentation of the news. Of course every picture of police batting people was done with a camera, but what they didn't picture made all the difference. The "kids" (30-50 years old) came armed with a lot of practical things to throw; they bought out the oven-cleaners "Eze-Off" and threw the contents in the eyes of the police, etc, etc. But you've read all about that. In any case I'm glad Daley stood up for the police and didn't take the "Chicago disgrace" lying down. It will take another 40 years for people to disassociate these "over-reactions" from the good name of the city--like Dillinger, Capone and the hoodlums and the smell of the Stock Yards. Dick was of course pretty much in the middle of things and I typed up some of his reports and, believe me, they were very interesting. Things were planned so far ahead, it's a wonder there were no deaths, at that. Dick washed Mace out of his eyes in the Grant Park fountains (drinking fountains) and spent a lot of time with the F.B.I. the Guard as well as the police.

Did you get up to Art's and what new subjects are you studying, if any, and are they interesting? Everything's interesting and if you can't tell me in a general way it's all right but I hope you do well and like it.

No more news, really, It's a lot cooler today and feels like Fall. How is it down where yo'all are? Much love from us all. Affectionately,

9-10-68

June 11, 1968

Dear Bil,

Just got your card asking for your check book. I have looked everywhere and cant seem to locate it. Give me a clue and I'll send it along.

It has been terribly hot here and I can imagine the heat where you are. It must be awful. I have not had the air-conditioners hooked up as I will be vacating my room here on the 25th and you mother says she doesnt think it will be necessary. But perhaps I should do something about the living room one. Dick is not interested in air conditioning.

Went to a ghastly party given by Blake Blair for Gloria Potocka who is visiting here. A terrible batch of mis-fits. Gloria on the verge of another breakdown, and Blake kissing his mother every five monutes, and saying "Isn't she remarkable" as indeed she is.

I found the enclosed five dollar bill in your wire pants pocket. use it carefully. The last ~~letter~~ from your mother came from Athens, so she is in the home stretch. A letter came from Nancy, mailed by a friend in New York(not regular post from France) telling Mary to skip Paris.

Dick and I had dinner at John and Kathy's Sunday evening. They are leaving for Wisconsin this weekend, as soon as the Antique Fair is over. They will go to Maine for July.

A party at Casey's Sunday afternoon for Margaret who graduated from the Madams. Perhaps I've told you

Imperial Hotel

Tokyo

Dear Folks, There's nothing like a Hilton. Here in Teheran, getting stamps, I find a loose typewriter and I'll just catch up a bit with such an opportunity. We've just been sightseeing and among other temples and mosques I went in to the American Embassy. It's huge and not particularly distinguished as to architecture, but the lawns and the flag are beyond reproach. We had been out to the ~~gibbest~~ (biggest) mosque in all Iran, actually now a seminary for Iranian priests. We also paid our respects at the tomb of one of the shahs, copied from Napoleon's. His wife's mausoleum we passed, too, not yet finished and why? because she's not yet dead. Then came the "rug washery"—cut in the dry but energetic countryside in a nice little pool, they wash the private, old, dirty rugs (these are not the new ones) and then they spread them out on the mountainside to dry in the hot sun.

We said good bye for the moment to our dark excellent guide (in school in Hamburg and England) until Friday morning when we will have another one of those 4A. M. risings to get on our way to Istanbul. ~~Once~~ a week of those is enough. However we have a nice interval coming up tomorrow. We go to have lunch at the home of M. & Mme. John Mazandi, head of our old organization, the United Press International—bless them. 177 Ave. Sereshteh That visit will be nice to enjoy early, rather than the dinner he originally suggested, since we have that 4 AM rising for Fri

Skipping about a moment, after travelling with our hearts in our mouths, ^{on the left} all through every country and India, sitting on the horns, I suddenly realized that in Iran we have been driving on the right. This normal country is a credit to the government, energetic, well laid out, green lined avenues and apparently good shops; the ladies are

It necessarily hid men under awful black curtains were a miserable dress of the West underneath. I notice that new buildings have huge, neat iron girders lying outside waiting, not bunches of poles such as we've seen in other places. Signs of oil everywhere and yet we're not near the fields. We got gas at the National Iranian Oil Company pumps (6 cents a litre.) We're going to go swimming in this large, nice pool. We were too tired the other day. Our planes, 4 props, have been O.K. I sent a card to B. Lebret and hope she'll be home; same for Ted Farley, the Augustinian in Rome whom I saw before, and also Fr. Felice, S.J. at Loyola and one John Ratigan in Mykonos, who was on the old Middle East trip and left and threw in his lot with the Greeks.

It's fine to be in the lap of luxury again, with the plumbing not only marble, but perfect; the food not only good, but reliable and of course English spoken everywhere we go. It's like having your cake and also eating it. Martha's two excellent letters (and I was very grateful indeed to get them ^{were} waiting for us last night on our return aaaaaaaaaaa (That contribution was made by a little boy who seemed pleased with the machine)). I let him have a whack at it till his horrified mother drew him off). Marf, you asked if we had had any malaise. The answer is Yes, not till Benares--even so I was able to attend to a few cremations ^{by} the river that morning but my heart wasn't in it. We were not always ideal in India, but nothing to complain about, and nothing to stop us. Congratulations on that East New England trip. I'm so glad you went and I know it was wonderful and it was very important I think that you were there. Hope Ted gets in for Margaret's graduation. Congratulations to everybody and love all around and to Julia and Dick and Bill and the best to all others.

Affectionately,

June 5, 1968

Hope Florence is feeling better. Don't kiss my love.

Mrs. AUGUSTINE BOWE

1120 LAKE SHORE DRIVE

CHICAGO 11, ILLINOIS

June 8, 1968

Dear Mary, Bill, et al,

It is Saturday afternoon, hot and bright and the beach is jammed. Dick has gone over for some sun, and just to get away from television. We spent the morning in front of it watching the ceremonies at St. Patrick's. The music was wonderful with Bernstein conducting Mahler, Richard Tucker singing the Panem Angelicus, and Andy Williams belting out Glory Glory Hallulia. In the middle of it came the news about the arrest of Earl Ray, the assassin of Martin Luther King. So much has happened in the last few days. Bill phoned from Fort Leonard Wood around noon, says he is fine, but of course has had no access to T.V. And of course Mary's letters, the last ones from Isfahan, while they do say that they know what is happening in France from reading Time, perhaps are not current on the Kennedy funeral.

I ran into Joe Alworthy on a bus on Friday and he says they are taking the same flight that we are and he thinks that we should not cancel out, just go ahead and let them land in Brussels if the French elections, which are due in the 23rd, haven't disturbed things too much. So it looks as though Owen and I will be off^m the 25th. Mary, I made a reservation at the Hotel d'Angleterre, rue Jacob, 44, (VIeme). It costs half what the St. James does, but of course may not be habitable under present conditions in Paris. We'll go to the St. James if /things are bad on the left bank.

I talked to Bertha Raymondeau today and she has been undecided whether to go or not. Her village is communist and every able bodied person in it works for the Renault plant which is struck. She thinks she will try it, if only to keep an eye on her property there. She has lost hundreds of francs with the present drop in the price of the franc.

Margaret Case graduated from High School this week and Martha has asked a few people for a glass of champagne tomorrow afternoon. I am going to dinner at John's afterward. There was a wonderful party at the Newberry recently. An old fashioned band concert, with old fashioned music and instruments, out in the yard under a tent, and a picnic supper. John and Kathy were there and I saw Katrina Boyden and the young Farwells. The Saltiels and Fitzsimmons added greatly to the fun(?) I sat next to an old couple named James Barker. He has worked for Sears all over the world and is really very interesting. The occasion for the party was the acquisition of the "Driscoll Collection" of old sheet music. Some it was on display in the lobby and is fascinating. The whole history of the United States is there. The songs which were sung at the time of each war, and the old minstrel tunes, some of which used to be on the piano when I was a little girl. Some of the titles: "The Drunkard's Lament", "Does your mother know you're out", "The Day of Liberty is comin'", "She borrowed My only Husband (and forgot to Bring him back)", "When Dewey comes Sailing Home" these were all printed on the program, in the various types of print which were popular then.

Mabel Pargellis is still in Maine. Kathy expects to spend July there and is looking for someone to rent the cottage in that month.

Bill after talking to you I looked over the mail and it is all junk, nothing from De Paul. I am just leaving it all in the box on your mother's desk for you to look over when you get here.

Love from us all,

Well I think of you so much. Good luck with...
 everything...
 Defeat... God behind."
 Much love from Mother

Dear Dick -

I got Guba's letter with your number about 2 AM. When we got in last night - We're really at opposite ends of the earth & in wildly different patterns. We made it through India in the only a days, Malaysia - that is, the Ganges and took care of a few moments in spite of it. It had to be seen to be believed. On arrival at Benares (called "Varanasi") I put out my thermometer (I said say just for the hell of it) & looking pulled it back in at 20°. India is another world & everybody is a mix of the Chinese - Hong Kong, was & Nepal & Kashmir & a good bit of the Middle East, which just be swallowed up.

India: - neat traffic jams involving bicycles (often 4 riding over) taxis using steady horns & making pedestrian jumps plus an assortment of cows. They would not care how - nobody hits them - though they do smooth their hides with the fenders. I could not enter Benares but not as hot as we are in Singapore. The dirt and dirt would be a permanent to the mind. He would never get over it. I don't think Mrs. Chauffeur can do much about the "Big Car". More black I counted 50 living but dead, only sleeping, on the dark, morning sidewalk as we went straight to the air port & Nepal.

India: - all little kids seen in a mountain on a hillside to sleep well, being usually down in any way, not in a car seat & confusion. I'm sure out of them naturally & finally a man in a flat boat came alongside with automatic color & changed the ship. Co. check (don't know the name) about as I sat reading about India in our 2-day houseboat, at Princes, Kashmir. And then a whole really, fashion show in their #1 were the glass, the most beautiful gardens, truly - "Pale Hands" sure enough. We did lovely sightseeing in Kashmir - gardens & Himalayas & lakes & waterways through the water lilies on the solid red weed, just below the surface. This was the livelihood of the lake people in flat boats trusting it up for fertilizer for the cucumbers and fodder for the cattle. We didn't swim there!

Now a good night at the huge Hilton - (patrol around the world (Arabia to have a little marble in the Stern & Palm House), quiet. All good lunch & 3 hrs of sightseeing coming up. Off tomorrow by 5 for Ephraim & Shiraz a night at each place. Then I happily will see Persepolis & the Tomb of Cyrus the Great (almost too far to get to him).

We are being perused in the most hospitable way, through Mr. Debble of Tokyo, by other representatives of the United Press International - Mr. Debble Head of the East (not Shoh!) is about to marry a Mrs. Delworth we once met at Sergio Papp (who writes for the Tokyo paper). We visited

Well this is very nice & we will wash our faces & go to his home to dinner next Thursday. On Friday-must we fly to Istanbul. Our flights have been ok with the props of Indian Airlines & Cambodian etc. Japan Air which we took from New Delhi to Tehran was a 4 jet job but with 6 seats across was an effort to breathe & we were glad to get out in the cool - just having missed an electrical raging storm & rains around here. We were lucky too to sit in the boiling Davaos airport 2 hrs & miss a sandstorm that predated planes from Laueing.

The Indian expedition had their own gear about 1000 - Karmandar, Pata were cool & had an extra camp seat. In Clara & in New Delhi we had nice pools - though the first was warm water, they do pretty well at that. We went with 100 morses & Hindu temples naturally & in with our own abundance on Sun.

Next tomorrow we go down to Sophocles (m. ar) & Shiraz (m. ar) & over to Persepolis, then back here & then to Turkey.

All this seems very far away & rather unimportant when you're in the army. Indeed most very different things - more important & more demanding than running around the world looking at ruins. I could tell you a little about the whole except that it's too long & tedious. I did a mile per hour of Florida-type visitation. I was very impressed with one & looks at Red China from a little village north of Katarandou & from Macao across a wide shallow river. In Cambodia along with Angkor Wat we saw the Mekong River where it meets the Tonle Sap & runs to the sea. One of our plant-based slaves was displayed in a park by the delta. I'd bet they didn't like the humidity & see to when she was there. There wasn't much of China there also was collected in other places. I've written so much home I hope you've seen the letters. I tried to put important & novel & interesting things in them.

I hope you are managing to manage a good & you're really been through enough friends. But good luck with it. I asked about by the Indian army but they said "Huy" but "Huy" knows nothing. I send you all my love & will be there for a long time on things. While the details of World 2. I don't see can't go into them without repeating. This next stop will be Istanbul June 7 - and the Semiramis Cabin to leaving Paris June 10 at 6:30 PM - then Athens June 15 - King George Hotel. In Rome June 18 the Hotel Victoria and what about Paris!! We should get there just in time to vote - or skip it & go straight to London? Can't help it, wonder what India &

I'll be home in June - Not alone City - will be home in June

MRS. AUGUSTINE BOWE

1120 LAKE SHORE DRIVE

CHICAGO 11, ILLINOIS

FRIDAY May 31st

Dear Bill, Julie, Mary et al,

It is the day after Memorial Day and we spent the holiday quietly. Todie and Stan came by around ten and we drove up to the cemetery where we found a field Mass going on. The loudspeaker was booming the homily over the peaceful graves. I explained for the umpteenth time how the Bowes came to be buried with the Valiquettes and Canavans.

Later in the day which I spent sewing, Dick and I walked up to San and Dodies. We skirted the park which was full of black picnics and the smell of barbecue sauce, turned west taking Hudson and Cleveland. It was so pretty on these back streets with all the trees in bloom, flags flying in each yard, children playing and evidences of upgrading those neighborhoods. It was a little too cool to eat out, but Stan fed his squirrels, there are four babies who tumbled about the bushes. We had steak and baked potatoes and listened to the news on TV.

Things go from better to worse in France and we are all heart sick over the whole mess. It looks as though Mary and Mary Mac are safer hovering in a plane over red china than are the travelers in Western Europe. Affairs are so upsetting I feel like crawling under the bed rather than travelling.

Dick says things are fairly quiet at the Commission, but that there is a lot of shifting of jobs as the negroes move up the scale so rapidly. There are so many jobs now open to qualified people that any one who has worked for the commission is offered a job elsewhere. We have found the same thing at the Youth Centers. Our negro staff are all on the move, and the ones that are left insist that they won't work with whites so we are being forced to hire more blacks, or else.

Today I have a date with Dr. Tori li, for him to look over my paper. He stood me up the last three times I tried to see him. But I have not put fire to the library in protest. There is new, gold carpeting in the library, and they are rebuilding the ninth floor into new offices for professors. It is a horrible mess right now.

Nancy Thompson is moving to California and had to cancel a luncheon date with me as she is giving things to Hull House and had to be there for the van.

Flora is here today and says everything is quiet in her neighborhood. Tony Rowe phoned yesterday to invite me to a school play today. They will go to the country about June fifteenth. Today or tomorrow is Charlie's third birthday. As I got him a swimsuit in Cleveland I am out of the running as far as gifts are concerned. They are leaving for the weekend tomorrow. John is busy with the Antique Fair in his neighborhood, and Dodie is thick with Margaret Murphy and parish affairs.
Love to you all

John
I want you to be happy and healthy and to be with me
Always your friend

Saturday May 29, 1968

Dear Mother Dick & John

To ease your concern over wandering files I want to reassure you that I'm down but not out. While I awake have debilitated me physically, mentally I'm as dull as ever. In this short span promising high powered top attorney has been transformed into quavelling yes man, (rank E-1). It's up a wall every morning and to bed I go the evening. In between are 2 hours of physical training (PT) 2 hours of marching drill and 2 hours of classroom instruction (the female mosquitoes & not you found; if captured by the Viet Cong it is your duty to escape. You are subject to court martial if you fuck on your buddy's back after being tortured (the 1st with flick took a bayonet in the foot but didn't run "don't go AWOL or we'll ruin your family and loved ones." So much for the classroom. Everyone here is 17 to 21 or so and here I am a very old man. At this point it's a routine that eliminates any chance for privacy or solitary reflection since you're kept moving all times. This pattern should ease somewhat however after another week or two. Rationing should also be another big improvement and by the time training is finished there will

5-11-68

Dear Bill, I found a typewriter--guess where--in the sweater and sequin shop while Mary Mac is having a suit fitted (She fell in a Japanese puddle in her pink one). This one is blue cashmere and she'll pay about \$45 for it.

We've just come back from a really great trip all around the mountains above the Hilton--up and down new roads in a building boom--again-- but all cement and highrise--up and down the endless hills. This harbour is stunning, all deep water and full of international shipping jammed in with the sampans. We took a bus after breakfast and went over to a cog railway--the balanced cars setup--and then down the other side of the mountain and finally to a beach very calm and choice for waterskiing-- then to a big cove, another harbour around another mountain (after seeing The Peak where the rich Chinese and English live and where we were told with pride Clark Gable made a movie. We visited the Chinese Balm millionaires house and gardens, really wierd (Balaban and Katz couldn't hold a candle to it) and then finally to the worst smell yet. Here we got out and were in a fishy, sampan village of refugees. This is where we ate, having to take a sam pan over to the floating restaurant. A great Chinese meal greeted us and we were cautious with our drinks. I had beer and many kinds of fish and dessert was a $\frac{1}{4}$ of an orange. Our boat was rowed by 2 women in black undertaker's pants and the whole place was alive at the bottom of a cemetery.

Thursday yet (here)
5-12-68

I never got back to the typewriter

We went all over Kowloon yesterday - across the harbor and had dinner last night in the home of a friend of McCallister's

Dear Bill,

Yesterday a large paper bag filled with your clothes arrived at the front door. I didnt open the package until this morning and then found a mimeographed paper that gave your number and address. In the meantime Carol phoned and said you had let her know, so I haave alerted Martha and will write to your mother today. So you will soon be in communication with the outside world.

Last weekend was quiet here, with Dick gone and John and his family in Wisconsin. I took Bertha Raymond to Mass at Quigley, she had never seen it and was impressed. Then at four I went to a reception at the Drake for two priests from the Cathedral who were celebrating something. In a corner away from the crowd, sat his Eminence, finishi a cup of coffee, and with no one to talk to. So I walked over and presented Margaret. Old Judge McCormick and his wife were there, Mrs Igoe, Bill Lee, etc. After one drink Margaret and I went to the B&G for a sandwich. A gay Sunday.

Letters nearly every day arrive from your Mother and there have been a couple of pictures which prove that she is enjoying it. The last from Cambodia were very interesting. Martha phones frequently and we compare notes. She is driving East this weekend with her family to visit Chesley, who has just returned from France. Nancy very much upset over the student unrest trying to keep Livie and J. Gwinn from roaming the streets in the "quatre chevaux".

I sent a deposit to a Latin Quarter Hotel for Owen and me and it is an optimistic gesture I guess, according to newspaper accounts. Perhaps we should go to a good safe spot like Russia.

Tomorrow the Illinois Arts Council gives an award to Nelsen Algren, for some reason or other. It involves Luncheon at the Drake.

Shall I send on your mail there? And how much of it. Certainly not the junk advertising, but all else?

Best wishes from Dick and me,

HONGKONG HILTON

to Patmanu -
Pan from the H.K. Hilton

Dear Dots

Our invitation to India fulfilled all expectations, and we have managed very well. The Grand (for all except my language) was a bit more than the weather but a big - 2 blocks from the end of our first room, passing a sparkling mansion in about a hour or so. Shower caps provided - blankets, and now we have the electrical wiring, you can't turn it off from there - or at all. Our meal in India are no longer in the house - good thing. But our heavy expenses are still stamps & like - & to have to figure that. The most interesting experiences (I told you this perhaps) at the house + Boland's Gardens etc. - which in the afternoon we visited the district, parts of town, i.e. Green? (from Indian quarries) monument. The Zoo - which has 2 white tigers and 700-800 people - but is not the crowded one that they have the entrance fee to 1 rupee 15¢. The English tanks are extensive & there is a very big sort complete in the main 10,000 could get on but have never been to it.  couple of stunning mosques.

In the evening at  as an entertainment. It is out of season & the show was also  In the dining room 7 musicians played for 1 hour. The music, well, for the dance was, I think, a drummer with 4 strings, drums and a harmonium. The 1st thing was arranged by a handsome woman in a purple and gold sari and her husband. (I think I don't ask, and 3 dollars. The 2 girls were utterly beautiful & the man very fierce. The dances were surpassing in all possible ways - finger twinklings and footwork thumping. At one point a beautiful lady voice + harmonium - piece from Subendranath Tagore. I was reminded that Aubrey Hayne has given me quite a volume of his poems. Very beautiful.

We ate a reward. Splendid baked fish, beer, dessert,
We turned in to pack the little we took out & got ready
for the 4 AM call. (Not Dick's wish).

At 5 we were on our way to the airport - through the
town was waking up. I saw several (estimated) in some
blocks. 50 people still asleep on the sidewalks. The cows
were up on their feet. If you own a motorcycle, you sleep
under it holding on to it.

At 6 at the airport we went through Customs & Immigration
& airport plane-checking - no frictions. Had our 400 ml
milk & 400 ml water (same as usual) and then we were
in.

It's supposed to be handia that way all through
India - it'll see. We had a booklet of tipped - and paid - stalls
Lorach local & airline (but not Goa - no more "on the house")
I wrote during a line & sent some more cards. These
letters will be pretty disappointed. Julia's book is nearly
filled up. Let me have 300 address when you get it
& I hope Dick had a good Christmas & found the family
well.

Love to you all. Carey & Susan. Affectionately Mary.

Kathmandu Nepal next.

P.S. Kathmandu in sight of Everest if the air
is right & it's not shy like Fujiyama who
waits till you're not looking to clear its clouds.

I hope Dean refers to some of these letters to
check the slides when they're developed. I've
kept lots of notes. Julia's book is nearly full.
After Athens I'll stop all this. Some of these
short stops can be fun.

Here we're enjoying our laundry drying & the
homely arts. Gorenness knows we've seen a lot
of it in the streets. M.

AROUND THE WORLD ITINERARY - Prepared for

MISS MARY G. Mc DEVITT and MRS. WILLIAM J. BOWE

Thurs. New York Unless flight is changed later, Mary departs from
