On the whole I'd rather be in Philadelphia. Actually there's a lot to do here. You can read Colliers or the Saturday evening Post, or you can talk to yourself. There is no stark problem. Unless, of course, you want to go for a swim.

My interviewing has gone much better ever since I hung a slide rule from my belt and started saying it must be great to be an engineer.

924-C
Actually, people have been quite helpful in providing me the information I need. Bill
