CASES AND TEACHING MATERIALS

1. Lynch, John (2021), “Developing and Testing Hypotheses from the Consumer Financial Protection Bureau’s National Financial Well Being Survey.” A case using the CFPBs published survey instrument and data set to propose hypotheses about what personal variables predict key financial behaviors such as payday loan use. Students then test their hypotheses using appropriate statistical tests.
2. Lynch, John (2021), “Masters of Science in Business Administration (A), (B), (C), and (D).” Students conduct one on one interviews with undergraduate students to develop hypotheses and questions for a survey of juniors and seniors, design a survey based on their interviews, field the survey, and analyze results to develop recommendations on targeting, channels of communication, and messaging for a MSBA program.
3. Lynch, John, Richard Netemeyer, Daniel Fernandes, & Dee Wartmath (2020) “Consumers’ Financial Well-Being & Overall Life Satisfaction.” *Journal of Consumer Research* Issues & Insights Teaching Series.
4. Lynch, John and Peter Truskey (2020), “Market Sizing: Medtronic Medical Devices.” A market sizing case for a lung cancer diagnosis device and a “backward market research” case highlighting role of secondary data.
5. Lynch, John (2018), “Rachio Smart Sprinkler Controller (A).” A “backward market research” case that highlights the role of secondary data. Devise hypotheses about zip code level predictors of adoption of new technology, find measures available using secondary data. Plan analysis before data collection.
6. Lynch, John (2018), “Rachio Smart Sprinkler Controller (B).” Use data from sample of customer base on predictors of smart sprinkler adoption, build models to predict sales in extrapolation set of zip codes, including interactions in regression models.

7. Lynch, John, and Steve Clouthier (2015), "Kellogg's Natural Cereal Focus Groups." New product concept screening for natural cereal concepts with accompanying video. Highlights Lynch and Figura (2005) framework for revising concepts based on focus group inputs and role of usage situation.
8. Lynch, John (2014). "Tesla Motors." A case about direct vs. indirect channels of distribution. Tesla's direct sales model does not involve franchised dealers. Considers the legal arguments made by dealers' association for why Tesla should not be allowed to sell direct to consumer. Sets up discussion of double marginalization and effects on pricing of selling through an independent retailer. Updated September 2016.
9. Schneider, Abigail and John Lynch (2011), "Navigating Insurance Policies: Trimble Guidance Systems." A backward market research case in which students must design an experiment to test concepts for alternative forms of an insurance product for agricultural guidance systems.
10. Lynch, John (2008), "ENTITLE DIRECT Title Insurance." Students design quasi experiments to assess incremental volume from three forms of web promotion. Illustrates threats to internal validity, quasi -experimental design principles of interrupted time series, latin square designs.
11. Lynch, John (2006), "BBC World Service: Arab Language Television A." Students asked to design survey research to evaluate proposed launch of BBC World Service decision to launch a new Arabic language TV station. Illustrates issues of population definition, sampling, and cultural complexities in survey research.
12. Carlson, Kurt and John Lynch (2006), "Fuqua Weekend Executive MBA Marketing C." Companion to A and B cases. Students are given SPSS dataset with actual responses to survey to analyze to generate recommendations for marketing action.
13. Carlson, Kurt and John Lynch (2005), "Fuqua Weekend Executive MBA Marketing B." Companion to A case. Students are given a survey that was actually conducted and data from it plan data tables that would answer management questions.
14. Lynch, John and Kurt Carlson (2005), "Fuqua Weekend Executive MBA Marketing A." A backward market research case in which students must design a survey to discover key factors affecting likelihood that a prospective WEMBA student passes through stages of admissions funnel. Case requires both sample design and questionnaire design.
15. Lynch, John and Jim Figura (2005), "Thoughts on Qualitative Research: Using Focus Groups for New Product Concept Screening." Provides a framework for analysis of focus groups for new product concept screening.

16. Lynch, John (2004), "IBM Global Mobile Computing Segmentation: The Prometheus Project." Students exposed to outputs of a large global segmentation study, making decisions about which of eight revealed segments to target.
17. Lynch, John (2004), "Banner Advertising for Duke University's Executive MBA Programs." Students design quasi-experiment to evaluate effects of EMBA banner ads.
18. Lynch, John (2002), "Milan Food Case: Simple Random and Stratified Sampling in SPSS." Shows role of sample size, and sampling method, illustrates concept of sampling distribution of sample means.
19. Lynch, John (2002), "Wall Street Journal / Harris Interactive Survey of MBA Program Recruiters." Shows effects of sample biases and interplay between questionnaire design and sample bias.
20. Lynch, John (2000), "MBA Admissions at Fuqua." Applies "backward market research (Andreasen 1985) concept to determine information needed and to analyze existing data on improving yield of daytime MBA program.
21. Lynch, John (2000), "Ethical Dilemmas in Managing Market Research." Highlights ethical responsibilities of managers in conducting and using market research.
22. Lynch, John and Kurt Carlson (2000), "Colgate Oral Care Focus Group Assignment." Highlights framework for revising new product concepts based on focus group inputs.
